

COURSE OUTLINE		
<b>TERM: Fall 2022</b>	<b>COURSE NO: BIOL 352</b>	
<b>INSTRUCTOR:</b>	<b>COURSE TITLE: Evolution of Life</b>	
<b>OFFICE: LOCAL:</b> <b>E-MAIL: @capilanou.ca</b>	<b>SECTION NO(S):</b>	<b>CREDITS: 3.0</b>
<b>OFFICE HOURS:</b>		
<b>COURSE WEBSITE:</b>		

Capilano University acknowledges with respect the Lil'wat, Musqueam, Squamish, Sechelt, and Tsleil-Waututh people on whose territories our campuses are located.

#### **COURSE FORMAT**

Each week there are three hours of class time, and an additional hour delivered through on-line or other activities for a 15-week semester, which includes two weeks for final exams.

#### **COURSE PREREQUISITES**

45 credits of 100-level or higher coursework

#### **CALENDAR DESCRIPTION**

This course will introduce students to Evolutionary Biology. It will focus on the process of evolutionary change and the resulting patterns of biological diversity. Recent advances and applications of evolutionary thought to human evolution, medicine, agriculture and conservation will be discussed.

#### **COURSE NOTE**

BIOL 352 is an approved Science and Technology course for Cap Core requirements.

BIOL 352 is an approved Science course.

This course is intended for students in the 3rd or 4th year of a degree program.

**REQUIRED TEXTS:**

Textbook: Kardon, K. An Introduction to Biological Evolution. New York: McGraw-Hill, 2008.

**COURSE STUDENT LEARNING OUTCOMES**

**On successful completion of this course, students will be able to do the following:**

- Be able to critically evaluate and discuss news reports pertaining to evolution.
- Understand the evolutionary history of humans, and how we are related to other life forms.
- Understand the applications of evolutionary biology in human health, agriculture, and the conservation of biodiversity.

**Students who complete this Science and Technology course will be able to do the following:**

- Assess the cultural, economic, and political effects of technology.
- Evaluate scientific information (e.g., distinguish primary and secondary sources, assess credibility and validity of information).
- Explain how scientific inquiry is based on investigation of evidence and evolves based on new findings.
- Participate in scientific inquiry and communicate the elements of the process, including making careful and systematic observations, developing and testing a hypothesis, analyzing evidence, and interpreting results.

**COURSE CONTENT**

<b>Weeks</b>	<b>Topics</b>
1-2	Darwin's Dangerous Idea <ul style="list-style-type: none"> <li>Evidence for evolution: from fossils to DNA</li> <li>Natural selection</li> <li>The reception of evolutionary thought</li> </ul>
3-4	Studying Evolution <ul style="list-style-type: none"> <li>Genetic variation: the raw material for evolution</li> <li>Natural selection in the wild</li> <li>Speciation and the evolution of biodiversity</li> </ul>
5-8	Episodes in the History of Life <ul style="list-style-type: none"> <li>Origin of life</li> <li>Evolution of plants and animals</li> <li>Human evolution</li> <li>Mass extinctions</li> </ul>
9-11	Applied Evolution <ul style="list-style-type: none"> <li>Darwinian medicine</li> <li>Artificial evolution: genetic modifications of organisms</li> <li>Conservation of biodiversity</li> </ul>
12-13	Evolution and the Future <ul style="list-style-type: none"> <li>Future evolution</li> </ul>
14-15	Final Exam Period

**EVALUATION PROFILE**

Final grades for the course will be computed based on the following schedule:

Exam I	25%
Exam II	25%
Essay	20%
Final Exam	30%
<b>TOTAL</b>	<b>100%</b>

- A graded assessment will be returned to students prior to the withdrawal date.
- Specific dates and details regarding the Evaluation Component will be provided by the instructor.

**GRADING PROFILE**

A+ = 90-100	B+ = 77-79	C+ = 67-69	D = 50-59
A = 85-89	B = 73-76	C = 63-66	F = 0-49
A- = 80-84	B- = 70-72	C- = 60-62	

**Incomplete Grades**

Grades of Incomplete "I" are assigned only in exceptional circumstances when a student requests extra time to complete their coursework. Such agreements are made only at the request of the student, who is responsible to determine from the instructor the outstanding requirements of the course.

**Late Assignments**

Assignments are due at the beginning of the class on the due date listed. If you anticipate handing in an assignment late, please consult with your instructor beforehand.

**Missed Exams/Quizzes/Labs etc.**

Make-up work is given at the discretion of the instructor. Normally, a score of zero will be given for a missed exam, test, quiz, lab, etc. In certain exceptional situations, the student will be permitted to write a make-up test, defer the lab to a later date or to replace the score by other marks (see below). The date and timing of any make-up option is at the discretion of the instructor. It may not be possible to reschedule certain labs, tests or other activities.

A score of zero may be avoided when the student meets all of the following conditions:

1. Circumstances are beyond the control of the student which resulted in the exam, test, quiz, lab, etc. to be missed. Such circumstances include serious illness or injury or severe personal crises. They do not include forgetting about the test, lack of preparation for the test, or work-related or social obligations. The student has notified the instructor (or the School of STEM office staff, if the instructor is not available) about the missed exam, test, quiz, lab, etc. Such notification must occur in advance or, at the latest, on the day of the exam, test, quiz, lab, etc.
2. Evidence of the circumstances may be requested. Proper medical documentation of illness or injury may be required from a doctor.
3. The student has been fully participating in the course up until the circumstances that prevented the writing of the exam, test, quiz, lab, etc. Fully participating means regularly attending labs and lectures and turning in assignments in the course.

**Attendance**

Regular attendance is essential in online classes. If classes are missed, it is the student's responsibility to become aware of all information given in the lectures and laboratories, including times of examinations and assignment deadlines.

**English Usage**

Students are expected to use correct standard English in their written and oral assignments, exams, presentations and discussions. Failure to do so may result in reduced grades in any part of the Evaluation Profile.

**Electronic Devices**

Students may use electronic devices during class for note-taking, calculations and in-class research.

**On-line Communication**

Outside of the classroom, instructors will (if necessary) communicate with students using their official Capilano University email, eLearn, WebEx, and/or Zoom; please check all platforms regularly. Official communication between Capilano University and students is delivered to students' Capilano University email addresses only.

**UNIVERSITY OPERATIONAL DETAILS****Tools for Success**

Many services are available to support student success for Capilano University students. A central navigation point for all services can be found at: <https://www.capilanou.ca/student-life/>

**Capilano University Security: download the [CapU Mobile Safety App](#)**

**Policy Statement (S2009-06)**

Capilano University has policies on Academic Appeals (including appeal of final grade), Student Conduct, Academic Integrity, Academic Probation and other educational issues. These and other policies are available on the University website.

**Academic Integrity (S2017-05)**

Any instance of academic dishonesty or breach of the standards of academic integrity is serious and students will be held accountable for their actions, whether acting alone or in a group. See policy and procedures S2017-05 Academic Integrity for more information: <https://www.capilanou.ca/about-capu/governance/policies/>

Violations of academic integrity, including dishonesty in assignments, examinations, or other academic performances, are prohibited and will be handled in accordance with the Student Academic Integrity Procedures.

**Academic dishonesty** is any act that breaches one or more of the principles of academic integrity. Acts of academic dishonesty may include but are not limited to the following types:

**Cheating:** Using or providing unauthorized aids, assistance or materials while preparing or completing assessments, or when completing practical work (in clinical, practicum, or lab settings), including but not limited to the following:

- Copying or attempting to copy the work of another during an assessment;
- Communicating work to another student during an examination;
- Using unauthorized aids, notes, or electronic devices or means during an examination;
- Unauthorized possession of an assessment or answer key; and/or,
- Submitting of a substantially similar assessment by two or more students, except in the case where such submission is specifically authorized by the instructor.

**Fraud:** Creation or use of falsified documents.

**Misuse or misrepresentation of sources:** Presenting source material in such a way as to distort its original purpose or implication(s); misattributing words, ideas, etc. to someone other than the original source; misrepresenting or manipulating research findings or data; and/or suppressing aspects of findings or data in order to present conclusions in a light other than the research, taken as a whole, would support.

**Plagiarism:** Presenting or submitting, as one's own work, the research, words, ideas, artistic imagery, arguments, calculations, illustrations, or diagrams of another person or persons without explicit or accurate citation or credit.

**Self-Plagiarism:** Submitting one's own work for credit in more than one course without the permission of the instructors, or re-submitting work, in whole or in part, for which credit has already been granted without permission of the instructors.

**Prohibited Conduct:** The following are examples of other conduct specifically prohibited:

- Taking unauthorized possession of the work of another student (for example, intercepting and removing such work from a photocopier or printer, or collecting the graded work of another student from a stack of papers);
- Falsifying one's own and/or other students' attendance in a course;
- Impersonating or allowing the impersonation of an individual;
- Modifying a graded assessment then submitting it for re-grading; or,
- Assisting or attempting to assist another person to commit any breach of academic integrity.

### **Sexual Violence and Misconduct**

All Members of the University Community have the right to work, teach and study in an environment that is free from all forms of sexual violence and misconduct. Policy B401 defines sexual assault as follows:

Sexual assault is any form of sexual contact that occurs without ongoing and freely given consent, including the threat of sexual contact without consent. Sexual assault can be committed by a stranger, someone known to the survivor or an intimate partner.

Safety and security at the University are a priority and any form of sexual violence and misconduct will not be tolerated or condoned. The University expects all Students and Members of the University Community to abide by all laws and University policies, including B.401 Sexual Violence and Misconduct Policy and B.401.1 Sexual Violence and Misconduct Procedure (found on Policy page <https://www.capilanou.ca/about-capu/governance/policies/>)

**Emergencies:** Students are expected to familiarise themselves with the emergency policies where appropriate and the emergency procedures posted on the wall of the classroom.

**DEPARTMENT OPERATIONAL DETAILS****PROFESSIONALISM**

Students should be able to demonstrate a professional attitude and behaviour: reliability, respect for and cooperation with colleagues, willingness to work calmly and courteously, respect for equipment and systems, and constructive response to criticism. The use of cellphones for non-academic purposes during lecture and lab sessions is prohibited. Students using cell phones inappropriately could be asked to leave the lecture hall or laboratory room by the instructor.

**TOOLS FOR SUCCESS**

For success in this course, students are expected to attend all lectures and laboratory sessions; come prepared to address topics presented; pre-read laboratory exercises; and complete assigned textbook readings. For every one hour of lecture material presented, students should expect to spend at least two hours reviewing material and engaging with the study tools provided.
