

ASSOCIATE OF SCIENCE DEGREE —BIOLOGY

GAIN A FOUNDATION IN LIFE SCIENCE

The natural world is the result of billions of years of biological evolution and growth. Biologists are at the forefront of researching everything from climate change to single-celled organisms, providing us with a greater understanding of life on Earth.

EXPAND YOUR KNOWLEDGE IN THE LAB

In the Associate of Science—Biology program at Capilano University, you'll get an opportunity to gain hands-on experience in the lab and the field. Using the latest tools, technologies and best practices, you'll build expertise in conducting, observing and analyzing experiments.

TRANSFER TO A DEGREE PROGRAM SEAMLESSLY

Biology courses at CapU can be applied to Bachelor of Science programs at other post-secondary institutions in B.C. where you can complete your degree. So you can study at CapU for the first two years, save thousands in tuition and transfer up to 60 credits when you're ready.

CAREER PATHS

- Biologist
- Biotechnologist
- Botanist
- Dietitian
- Ecologist
- Food scientist
- Geneticist
- Researcher

PROGRAM

Associate of Science Degree — Biology

2 years | Full-time or Part-time | Starts in September, January or May
